

CARE ASSISTANT AND ENS TECH TRAINING PROGRAMS

It takes a village to raise happy, healthy kids. At Children's Mercy (CM), **Care Assistants and Emergency Nursing Services (ENS Techs)** are a big part of that. When families turn to us, it's all hands in to create a helpful, positive experience.

CA's and ENS Techs are often one of the first faces patients and families see. Whether it's to take vital signs, communicate next steps, assist with daily care or explain and/or assist with procedures, these are the moments people remember from their visit to our hospital.

If you are ready to be a critical part of our care team and start your journey to a clinical career, this is the perfect program for you.

About the Program:

- Seven - eight weeks of pediatric-specific training.
- Facilitated by a CM Clinical Instructor.
- Includes on-site clinical and classroom instruction.
- Learn to take vital signs, interact with patients and families, partner with care teams, assist with daily activities and more.

How the program benefits you:

- Receive full-time salary and benefits eligible during the training.
- No previous healthcare experience is required.
- Earn Basic Life Support (BLS) Certification.
- Transition to a full-time position after successful completion of the training program.
- Get a strong start to your clinical career.

Application and Class Dates for 2026

- Application opens on 8/24/2026 for 10/12/2026 inpatient and ENS Tech class.

How to Apply:

1. Visit www.childrensmercy.org/careers beginning 8/24/26
2. Select the Introductory Care Assistant or Introductory ENS Tech posting
3. Complete the application
