Telemedicine

Children's Mercy has more than 500 pediatric specialists providing telemedicine services, including facilitated appointments at our regional centers (Joplin, Junction City, Springfield, St. Joseph, Wichita). Due to advancements in technology, a Children's Mercy RN provider can be virtually anywhere delivering the same high-quality care that is the Children's Mercy standard. There are times when patients will need traditional in-person visits with their doctors. Children's Mercy providers will guide your referred patients on when a telemedicine visit is appropriate.
